Natural avalanches near Cooke City

Scotch Bonnet
Cooke City
12/31/2018
Code
SS-N
Notes

From an email:

"Today we skied on the southeast end of Scotch Bonnet. We saw some naturals further west (the Rasta chutes) and on some of the other big features of the region (on sheep west face and the peak just south of lulu pass). All on scotch bonnet appeared to be involving storm snow though the further ones could have involved deeper layers."
