Cracking and Collapsing near Ennis Lake

Red Knob
Northern Madison
1/26/2019
Code
Elevation
8000
Latitude
45.45470
Longitude
-111.59200
Notes

From the email: "Went to Red Knob, up Trail Creek at the northeast side of Ennis Lake. Between the two of us, we experienced 16 collapses on slopes above 7000 feet to the top at 8000. Did not dig any pits, stayed on slopes less than 30. One slope at about 30 collapsed and shifted down slope a few inches." - J. Riedel and A. Hjelt
