 Co-ord: **45.81990N, -110.93320W**
 Slope Angle: **27°**
 Wind Loading: **yes**

Stability: **Poor**
 Air Temperature: **-8°C**
 Sky Cover: **BKN**
 Precipitation: **NO**
 Wind: **W Light Breeze**

HS110
Stability Test Notes

Layer No
45-55: Pr

Specifics: Pit is adjacent to avalanche: flank; Recent activity on similar slopes; Recent activity on different slopes

Notes: We were unable to get to the crown, so dug on an adjacent slope about 500' to the south.

Advisory Region
 Bridger Range
 Bridger Range, 2017-12-30
