

Small natural activity in Beehive

Beehive Basin

Northern Madison

12/25/2020

Code

Latitude

45.34070

Longitude

-111.39100

Notes

From email: "Today we saw a small avalanche that came out of the rocks lookers left of the 4th of July [Couloir](#), too far away to give any details, just a small debris pile. I don't think it was there yesterday, but I could have missed it. We also saw some very small point releases and roller balls on steep south facing slopes."
