

The Playground

Date

Sun, 03/07/2021 - 16:48

Activity

Skiing

Dug a pit on an east aspect above the playground at 7650' (HS210), 5" of new snow some of which was graupel. ECTN17 down 20 Q1, ECTN down 35 Q3. No propagation. February snow is consolidated and the depth hoar crystals are starting to round. Snow on north aspects and shaded east aspects stayed dry but got fried everywhere else.

Region

Bridger Range

Location (from list)

The Playground
