

## Natural avalanche in Twin Falls Basin

Mt. Bole  
Northern Gallatin  
2/15/2023  
Code  
Latitude  
45.41600  
Longitude  
-110.99800  
Notes

Saw debris and what looked like a crown line from a natural avalanche that probably happened a day or two ago in palace butte basin on a NE [aspect](#) above Arden lake. My best guess is 150ft wide crown, 1-2ft deep?
