## Wind slab in tobacco roots

Bell Lake Out of Advisory Area 4/21/2024 Code SS-AS-R1-D1 Elevation 9750 Aspect

N

Latitude

45.53640

Longitude

-112.00300

Notes

Toured up around bell lake today and after a night of wind, triggered a very small wind slab in a north facing couloir at around 9500-10000ft. It was almost 10" deep and was about 10-15ft across. Snow was being loaded through out the day and was staying cold up high.
